

Chasers and Angle Grinders

MAKITA 4114S DISC CUTTER

5

DISC CUTTER 4114S 355mm

Suitable for cutting concrete, brick, steel etc. 355mm blade and 2400w of power.

Great for fume free cutting indoors, and small outside jobs.

Dust nozzle can be connected to a vacuum cleaner for dust extraction.

Features soft start and Makita's Super Joint System reducing tool kick-back and tool damage caused by accidental wheel binding.

Depth of cut 125mm.

MAKITA SG1250 WALL CHASER

5

WALL CHASER SG1250 125mm

Suitable for chasing concrete, brick, block etc.

Capable of chasing 6-30mm wide. Will chase up to 30mm deep.

Dust nozzle can be connected to a vacuum cleaner for dust extraction.

Comes standard with two diamond blades and plastic carry case.

Only 4.1kg with 1400W continuous output.

MAKITA ANGLE GRINDERS

5

9565CV Variable Speed 125mm (5")

Perfect for applications such as dry polishing and concrete grinding. Features soft start, electronic current limiter and electronic speed controller.

Rated Input	1400W
No load speed	2800-11000rpm
Disc Diameter	125mm
Spindle Thread	M14
Weight	1.8kg

9040S 230mm (9")

Heavy Duty multi-purpose angle grinder with increased heat resistance for serious grinding and frequent usage applications.

Features rotatable rear handle for increased control, carry case, and comfortable rubber handles.

Rated Input	2400W
No load speed	6500rpm
Disc Diameter	230mm
Spindle Thread	M14
Weight	4.7kg

Quick Release Diamond System

Quick release diamond system for rapid change over of diamonds from grinding machines. No bolts required to swap diamonds.

Suitable for the following machines:

- CUB single phase 10" grinder either four or five shoe configuration.
- 10" 250mm Petrol or Three Phase Cretemowers, Corecut, Edco etc.
- 12" 300mm Petrol or Three phase Corecut, Floorpro, Contec etc
- 10" 250mm Dual overlapping plates for THG505.

Benefits:

- Fast change over of diamonds.
- Cheaper to use on going than most ready made plates
- Allows more combinations of diamonds to be used.

Shoes are reusable for re-tipping and mounting plates are balanced for even wear of diamonds.

Call for prices to change your grinder to this simple system.

Shoes priced from \$43+ complete

Grinding Segments for Retipping

GRINDING SEGMENTS FOR KING, HTC, 7" CUPS, PLATES ETC

1

Large range of high productivity segments available for fitting to ours or your own plates or shoes from large planetary machines to angle grinder discs. We can supply all popular models of shoes and plates ie. King Concepts, HTC, Core Cut, Contec etc. Call for our recommendation.

RETIPPING SERVICES

At Bladetec we offer a fast turn around re-tipping service for all types of floor grinding machines. We retip on site and most times we can send your jobs out the same day that we receive them.

We have all popular models of shoes and plates ie. King Concepts, HTC, Core Cut, Alpha, Cub etc, ready for fitting with segments of your choice.

Alternatively, send us your used plates/shoes and we will re-face them and fit them with the segment and configuration of your choice. All plates are balanced and painted before delivery to the client.
